

ENVIRONMENTAL POLICY

We, at **TOYOTA TSUSHO INDIA PVT. LTD.**, engaged mainly in the business of trading, steel processing, and providing logistics services, are committed to continually improve our environmental performance by institutionalizing the core value of environmental protection.

This commitment shall be achieved through:

- Effectively imparting environmental awareness and job specific training to all our employees and contractors.
- Complying with all relevant legal requirements related to environmental aspects, and other requirements, including requirements of Toyota Tsusho Corporation, Japan.
- Prevention of pollution by implementing effective waste management practices and waste minimization at source wherever practicable including contribution towards realizing a recycling based economy.
- Conservation and preservation of natural resources through effective utilization.
- Setting and reviewing objectives and targets periodically to ensure continual improvement in the environmental performance of the organization.
- Policy to be made available to all interested parties on request and to all persons working for or on behalf of the Company.
